Subject: Slides on AA/DV & Homicide with firearms 2010-2016

Good afternoon,

I'm working on a grant proposal today and developed these slides. Thought you might find them interesting and a little disturbing. AA/DV is becoming more and more likely to involve firearms. Nearly 1 in 3 did in 2016. This reflects a general trend for more firearm involvement in all crime. Firearm involvement in homicide has grown 34% since 2010 (more than 78% of homicides in 2016 involved a firearm, compared to only 58% in 2010).

Thanks,
AM
